

SHUBRATH SHAKYAVANSHI

AI & Automation Engineer | Generative AI · LLMs · RAG · Multi-Agent Systems · MLOps

ssshubrath@gmail.com | +91-9664968378 | shubrathshakyavanshi.in | linkedin.com/in/shubrath-shakyavanshi | github.com/shubraths

PROFESSIONAL SUMMARY

AI Engineer with 3 years of experience designing production-grade GenAI, RAG, and multi-agent systems. Delivered 40% workflow efficiency gains and a 50% reduction in manual reporting through LLM orchestration and MLOps pipelines deployed across AWS, Azure, and GCP. Published research in LLM fairness and Responsible AI.

TECHNICAL SKILLS

GenAI & Agentic AI: LangChain, LlamaIndex, RAG, CrewAI, AutoGen, MCP, Prompt Engineering, OpenAI, Anthropic Claude, Google Gemini, LLaMA, Mistral, Whisper

Vector DBs & ML/NLP: Pinecone, FAISS, Weaviate, Chroma; PyTorch, TensorFlow, Hugging Face, Transformers, NER, OpenCV, Scikit-learn

Cloud & MLOps: AWS SageMaker, Azure ML, GCP Vertex AI, Docker, Kubernetes, MLflow, CI/CD

Languages & Tools: Python, TypeScript, JavaScript, Java, SQL, FastAPI, Flask, Node.js, REST APIs, Git, SAP, UiPath, n8n

WORK EXPERIENCE

SSPACIA India Pvt. Ltd. — AI & Automation Engineer

Jul 2025 – Present | Ahmedabad, India

- Architected production GenAI workflows orchestrating Claude, GPT-4, and Gemini via CrewAI and AutoGen multi-agent pipelines for automated document classification and report generation.
- Built end-to-end RAG systems with LangChain, LlamaIndex, and vector databases (Pinecone, FAISS, Weaviate) for enterprise semantic search across internal knowledge bases.
- Engineered AI microservices and REST APIs integrated into a custom ERP, unifying 5+ tools and improving workflow efficiency by 40%; established MLOps with MLflow, CI/CD, and monitoring across AWS, Azure, and GCP.
- Automated ETL pipelines (Python, SQL) reducing manual reporting by 50%; deployed transformer NLP pipelines (tokenization, NER, classification) improving knowledge-base accuracy.

Mindra Group (Reliance Industries Ltd.) — SAP Consultant

Dec 2023 – Jul 2025 | Ahmedabad, India

- Migrated 50,000+ records to a new SAP B1 system while maintaining 99%+ data integrity.
- Automated Crystal Reports workflows, cutting report generation time by 35%.

Mindra Pvt. Ltd. — Business Automation Intern

Jul 2023 – Nov 2023 | Ahmedabad, India

- Reduced process time 20% and operational cost 15% via UiPath and Power Automate; improved data accuracy 25% through automated validation workflows.

PROJECTS

Nebulux — Autonomous Multi-Agent AI Software Factory — Node.js, WebSockets, Claude, Gemini, Ollama, Multi-LLM Orchestration

- Architected an autonomous “AI software factory” coordinating 5 specialized agents (Planner, Designer, Coder, DevOps, Supervisor) under a Separation-of-Concerns pattern to plan, design, code, and deploy full-stack apps end-to-end.
- Built hybrid multi-LLM orchestration integrating Claude, Gemini, Kimi K2.6, and local Gemma (via Ollama) with per-stage model swapping, BYOK security, and async WebSocket streaming for real-time agent dashboards.

Operatik — Custom Business Operations Platform — Full-Stack, REST APIs, Microservices, Automation

- Built a zero-bloatware ERP mapped 1:1 to business workflows with modular architecture (HR, Order-to-Delivery, Auto-Purchase, Accounts) and real-time cross-department sync.

Aria — Multilingual iOS AI Assistant — SwiftUI, MVVM, Anthropic API, STT/TTS

- Built a privacy-first iOS assistant with on-device storage, native EventKit/Contacts integration, and Hindi/Gujarati/English multilingual support via Anthropic LLM orchestration.

LLM Fairness & Bias Evaluation Research — Python, Hugging Face, StereoSet, CrowS-Pairs, BBQ

- Quantified bias across multiple open-source LLMs using industry-standard benchmarks; published reproducible evaluation scripts contributing to Responsible AI research.

EDUCATION & CERTIFICATIONS

Parul Institute of Engineering & Technology, Vadodara

B.Tech in Computer Engineering — Specialization: AI & Machine Learning | 2024 | CGPA: 8.1 / 10

Certifications: Machine Learning (Internshala) · Cybersecurity Essentials (Cisco) · Google Data Foundations (Google)
