

Shubrath Shakyavanshi

AI Engineer | GenAI · LLMs · NLP · RAG · Multi-Agent Systems · MLOps · Responsible AI

Ahmedabad, India | +91-9664968378 | ssshubrath@gmail.com

linkedin.com/in/shubrath-shakyavanshi | github.com/shubrathsh | shubrathshakyavanshi.in

Summary

AI Engineer building production **GenAI, RAG, and multi-agent systems** — agentic orchestration, retrieval pipelines, and transformer-based NLP — deployed as cloud-native microservices with CI/CD and monitoring across **Azure, AWS, and GCP**. Independently builds and open-sources **Responsible AI** tooling for LLM bias and fairness evaluation. Earlier background delivering enterprise software and automation for **Reliance Industries**.

Technical Skills

LLMs & Generative AI: RAG, Embeddings, Transformers, Prompt Engineering, GPT-4, Claude, LLaMA, Mistral, Whisper
Agentic AI & Orchestration: LangChain, LlamaIndex, CrewAI, AutoGen, MCP, Multi-Agent Pipelines
Responsible AI & Evaluation: LLM Evaluation, Bias & Fairness Benchmarking, StereoSet, CrowS-Pairs, BBQ
NLP & ML: NER, Text Classification, Summarization, PyTorch, TensorFlow, Hugging Face, Scikit-learn, OpenCV
Cloud & MLOps: Azure ML, SageMaker, Docker, Kubernetes, MLflow, CI/CD, FAISS, Pinecone, Weaviate, Chroma
Engineering & Data: Python, TypeScript, JavaScript, Java, SQL, FastAPI, Flask, Node.js, REST APIs, ETL, Git

Independent Projects

Nebulux: Autonomous Multi-Agent Software Engineering System | *Node.js, WebSockets, Claude, Gemini, Ollama*

- Built an **autonomous multi-agent system** coordinating **five** role-specialized agents (planning, design, coding, DevOps, supervision) to generate and deploy full-stack applications end-to-end.
- Implemented hybrid **multi-LLM orchestration** across Claude, Gemini, Kimi K2, and local Gemma (via Ollama) with per-stage model swapping, bring-your-own-key handling, and asynchronous **WebSocket** streaming to live dashboards.

LLM Bias & Fairness Evaluation Harness | *Python, PyTorch, Hugging Face, StereoSet, CrowS-Pairs, BBQ*

- Evaluated bias across multiple **open-source LLMs** using standard benchmarks (**StereoSet, CrowS-Pairs, BBQ**), measuring fairness and surfacing systematic bias patterns.
- Open-sourced** reproducible evaluation code — dataset loading, batched inference, and per-category bias scoring — contributing practical tooling to Responsible AI.

Aria: Multilingual iOS AI Assistant | *SwiftUI, MVVM, Anthropic API, STT/TTS*

- Built a **privacy-first** conversational assistant for iOS with on-device storage, EventKit/Contacts integration, and **Hindi/Gujarati/English** support via the Anthropic API and speech-to-text/text-to-speech.

Operatik: Modular Business-Operations Platform | *Full-Stack, REST APIs, Microservices*

- Built a modular operations platform mapped to real business workflows (HR, order-to-delivery, purchasing, accounts) using a **microservices architecture** with cross-module synchronization.

Professional Experience

SSPACIA India Pvt. Ltd.

AI & Automation Engineer

Jul 2025 – Present

Ahmedabad, India

- Designed and shipped production **GenAI systems** orchestrating Claude, GPT-4, and Gemini through **CrewAI** and **AutoGen** multi-agent pipelines for conversational AI, document classification, and automated reporting over structured and unstructured data.
- Built end-to-end **RAG pipelines** with LangChain and LlamaIndex over vector databases such as **FAISS** and **Pinecone**, using embeddings and semantic search for retrieval across internal knowledge bases.
- Improved workflow efficiency by **40%** by packaging AI capabilities as **microservices and REST APIs** and integrating them into a cloud-native internal ERP, unifying **5+** previously disconnected tools.
- Established the team's **MLOps** practice with MLflow experiment tracking, CI/CD, and model monitoring, deploying workloads across **AWS SageMaker, Azure ML, and GCP Vertex AI**.
- Cut manual reporting effort by **50%** by building transformer-based **NLP pipelines** (tokenization, NER, text classification) and automated **ETL** in Python and SQL.

Mindra Group (Reliance Industries Ltd.)

SAP Consultant

Dec 2023 – Jul 2025

Ahmedabad, India

- Migrated **50,000+** records into a new **SAP B1** platform at **99%+** data integrity via validation scripts and automated reconciliation.
- Reduced report-generation time by **35%** by automating **Crystal Reports** workflows and standardizing recurring business reporting.

Education

Parul Institute of Engineering & Technology

Bachelor of Technology (B.Tech) in Computer Engineering, AI & Machine Learning (CGPA: 8.1/10)

2020 – 2024

Vadodara, India
